Hellenic Accreditation System

Annex F1/3 to the Certificate No. **1235-2**

SCOPE of ACCREDITATION

of the

Laboratory of Environmental Fuels and Hydrocarbons

of the

Chemical Process & Energy Resources Institute

of the

Center for Research and Technology-Hellas

Materials / Tested products	Type of test/ Measured properties	Applied standards/ Techniques used
Chemical Testing		
Liquid fuels (gasoline, diesel, biodiesel, lubricants, fuel mixtures)	Determination of density by digital density meter	ASTM D 4052:22
Petroleum fractions in the boiling range up to 540 0C	Boiling range distribution of petroleum fractions by gas chromatography	ASTM D2887:2022
Petroleum fractions	Determination of Cloud Point	ASTM D2500:2017a, modified
Zeolite catalysts	Determination of the unit cell dimension of a faujasite-type zeolite.	ASTM D 3942:2019, modified

Site of assessment: **Permanent laboratory premises, 6th km Xarilaou-Thermi Str., Thessaloniki**
Approved Signatory: **A. Lappas, G. Tsioni**

This Scope of Accreditation replaces the previous one dated 09.01.2025.
The Accreditation Certificate No. **1235-2**, according to ELOT EN ISO/IEC 17025:2017, is valid until 11.01.2030

Athens, 29.05.2025
