Hellenic Accreditation System

Annex F1/6 to the Certificate No. **1172**-3

SCOPE of ACCREDITATION

of the

Testing Laboratory

of

CORAL-PERAMA LAB

Materials / Products tested	Types of test / Properties measured	Applied methods / Techniques used
Physicochemical tests		
1. Petroleum and petroleum products	1. Determination of Density (Kg/m^3, g/cm^3)	Hydrometer method ASTM D1298-12b(2017)
	2. Determination of Dynamic Viscosity and Density of Liquids by Stabinger Viscometer (and the Calculation of Kinematic Viscosity)	ASTM D7042-21
	3. Determination of sulfur (% wt)	X-ray fluorescence method ISO 8754:2003
	4. Determination of flash point – Pensky-Martens closed cup method	ISO 2719:2016/Amd 1:2021
	5. Determination of water-Coulometric Karl Fischer method	ISO 12937:2000
2. Petroleum products	1. Determination of ash	EN ISO 6245:2001

Site of asseseement: **Dimokratias Ave. 192 18863 Perama, Piraeus.**
Approved signatories: **I. Pagopoulou, D. Pettas.**

This Scope of Accreditation replaces the previous one dated 26.07.2023.
The Accreditation Certificate No. **1172**-3, according to ELOT EN ISO 17025:2017, is valid until 6.08.2028.

Athens, 14.09.2023
